

**Q 9. Write a JavaScript program for calculating tax on salary.**

**Ans:**

```
function calculateTax(salary) {  
    // Assuming a fixed tax rate of 20%  
    var taxRate = 0.20;  
  
    var taxAmount = salary * taxRate;  
  
    var netSalary = salary - taxAmount;  
  
    console.log("Salary: Rs" + salary.toFixed(2));  
    console.log("Tax (20%): Rs" + taxAmount.toFixed(2));  
    console.log("Net Salary: Rs" + netSalary.toFixed(2));  
}  
  
var salary = 50000;  
calculateTax(salary);
```

**Output:**

```
Salary: Rs 50000.00      script.js:9  
Tax (20%): Rs 10000.00  script.js:10  
Net Salary: Rs 40000.00 script.js:11  
>
```
